9 MAY 2026: The Graduation Issue

The ceremony featured a stirring address that challenged the graduates to view their time as a non-renewable currency. The young men were encouraged to lead with excellence first, ensuring that the world sees “the king before they see anything else.”

LEGACY

Saturday, May 9, 2026 marked a powerful milestone as the Richardson Plano Kappa League hosted its Graduation Ceremony, celebrating seven exceptional young men who have transitioned from “young men with potential; to “men with purpose.” This event was more than a conclusion to their high school careers; it was a commencement of their journey as leaders and scholars ready to impact the world.

WISDOM FOR THE JOURNEY

The Brothers delivered key messages and encouragement to the graduates and offered a unique perspective on long-term success:

- **Right is Right**, even if you are the only one doing it.
Wrong is wrong, even if everyone is doing it!
- **“Invest in your middle name”** By treating their future self not as a stranger but as a person they are responsible for today, these graduates were urged to use money as a tool to build legacies and secure their future freedom.
- **Luke 12-48:** From everyone who has been given much, much will be required; and from the one who has been entrusted with much, much more will be asked.

WITH HEARTFELT GRATITUDE

Success is a team sport, and this year's achievements would not have been possible without the dedicated support of our community.

- **To our Brothers:** A profound thank you to all the brothers who contributed countless hours of volunteering and chaperoning. Your commitment made our exciting trips and classroom instructions possible this year.
- **Special Recognition:** We extend a special thank you to **Brother Kevin Burnett** and **Brother Eric Gaines**. Your many contributions and unwavering dedication to the program and these young men have left an indelible mark on their lives.

Congratulations to the Class of 2026! As you head to your respective universities, remember: graduation isn't the finish line—it's the starting block. **Let's get to work.**
